To: All Members of SITE Association (through email & Whatsapp)

FIRE PREVENTION GUIDELINES DURING DRY SEASON

In view of upcoming dry weather that can lead to emergency situations & fire incidents, **it is strongly advised to adopt, amongst others, the following Fire Prevention Tips in all factories.**

1. Factories must install at least first response fighting system.
2. Factory waste (cotton, chemicals, other hazardous items, leftover, garbage, trash, rubbish) must be properly disposed-off on regular basis;
3. Keep your factory's premises clean because clutter contributes to fires;
4. Check electrical hazards as many fires start in faulty wiring;
5. Use and store chemicals safely to prevent flammability and other fire hazards; Provide adequate ventilation when using and storing these substances;
6. Prevent arson fires and don't leave combustible rubbish outside the building where it can be set afire;
7. Smoke only in designated areas, and extinguish smoking materials safely. Never smoke in store rooms or chemical storage areas;
8. Learn how to properly use fire extinguisher.
9. Keep your fire alarm system/smoke detectors and fire equipment in good working condition.

We are proud to inform our valued members that the honorable Governor Sindh, Mr.Imran Ismail has inaugurated “**SITE ASSOCIATION FIRE STATION**” with 2 brand new state of the art Fire Tenders and 24/7 availability of proper trained staff enabling quick & efficient response in case of fire eruption.

Therefore, please call SITE Crime Monitoring Cell at the following numbers (24/7) in any Fire Emergency.

0300-8265462
021-32565959
021-32568989

Regards,

Muhammad Faheem
Secretary General
